

WSAPC SCIENCE LEARNING PATHWAY MEDICAL

The purpose of the KS3 science curriculum:

The purpose of the KS3 curriculum in science is to establish a firm foundation in the core ideas underpinning the three sciences. In KS3, we offer a two-year programme based on the AQA 'Activate' scheme. Twelve units establish a learning pathway through to the beginning of KS4. Scientific, literacy and numeracy skills are developed through each unit and are routinely included in lessons.

The purpose of the KS4 Science curriculum:

In WSAPC Medical, we offer students the chance to sit AQA GCSE Biology, Foundation or Higher. Individual lessons are scaffolded by differentiated learning objectives which enable students to make progress towards their individual targets. There are regular assessments during and at the end of each component.
